

11th-13th January 2024

**Weissensee Haus, Weissensee
Carinthia, Austria**

Vienna, 1st September 2023

Dear Friends of the “Cardiovascular Research Days”,

It is a great pleasure to announce the “11th Cardiovascular Research Days” in Weissensee, Austria. During the last 17 years we had great meetings in Weissensee (2006, 2007, 2008, 2010, 2012, 2020), then in Cortina, Italy (2014), in Heidelberg, Germany (2016) and in Debrecen, Hungary (2018). Last year, we all meet in Krakow, Poland (2022).

The cornerstone of the “Cardiovascular Research Days” has always been the interdisciplinary approach, bringing together cardiologists, cardiac surgeons and basic scientists, as well as the attempt to address a topic from basic science to clinics. This year’s topic is completely in line with these principles:

“(R)evolution in cardiac surgery and cardiology”

Never before, new technologies and a changing environment have influenced the field of cardiovascular medicine more than today. It is our chance and task to address these developments to be prepared for the future! If we look closer, we shall realise that some will evolve whereas others will be disruptive and revolutionary. We must go united and endeavour common solutions over individual once. That is, what we owe our patients!

As always, we invite senior scientists, experienced surgeons and cardiologists to share state-of-the-art information, whereas young scientists and clinicians shall have the opportunity to present their latest work.

Major topics will be:

- Myocardial & vascular protection
- New devices & drug therapies
- Heart valve therapy
- Vascular grafts
- Co-morbidities
- Cardio-oncology
- 3D printing
- Precision medicine
- Training the current and next generations

For further details, please visit: www.biomedforschung.meduniwien.ac.at

Abstract deadline: November 15th 2023

The official slogan of the region is “Weissensee – playground of nature”. We will bring “science” to this pristine spot in the Austrian Alps that has preserved its natural beauty over time. We cordially invite you to participate and look forward seeing you at Weissensee!
